

Container for cans

Container for cans

Application

The container holder for cans ensures stability when mixing all sturdy PROXAN®- joint sealants. A can (2.5 l or 4.0 l container) with joint sealant is clamped into the packaging holder for cans. A clasp ensures that the packaging is held firmly in the holder. Standing on the two holding plates fastened onto the container holder on the ground prevents the container holder from sliding.

Features

- can does not slip during homogenisation of PROXAN®- joint sealant
- stable footing thanks to holding plates on the bottom of the holder

System products

Joint sealants

- PROXAN®- KV 2 ST
- PROXAN®- KV 3 ST

Tools

- Mixing paddle agitator (Mischpaddelrührer)
