

Cartridge agitator

Kartuschenrührer

Application

The spiral agitator is suitable for bubble-free homogenisation of the two-component, sturdy PROXAN®- joint sealants in cartridges. It is fastened onto a powerful drill or agitator and the sealant is mixed with the cartridge agitator. With its long mixing head, the agitator ensures that both components are homogenised free of bubbles in the entire cartridge.

Features

- optimal mixing of sturdy PROXAN®- joint sealants in cartridges
- high durability
- easy cleaning

System products
